CWUHA has previously worked in and run missions to the Ukraine to help disadvantaged children and their families.

To help the humanitarian effort CWUHA will be delivering aid direct to refugees in Poland.

We are looking to one of our employers/partners to supply vehicles which will enable us to transport aid direct to the aid stations. Failing this we will be looking to work with organisations in the various countries to ensure our aid reaches the refugees. We will only be delivering items that are needed and of good quality.
